

Cuticura Soap is Easy Shaving for Sensitive Skins

HE WAS CRIPPLED WITH RHEUMATISM

First Bottle of Prescription C-2223 Relieved Aches and Pains.

Is Now Entirely Well.

Mrs. W. E. Nabors, of 1416 St. Bernard Ave., New Orleans, La., writes February 18, 1919, as follows:

"I was crippled with rheumatism before taking Prescription C-2223. A few doses gave remarkable relief, and before I finished the first bottle, I hardly had an ache or pain. I have recommended Prescription C-2223 to several people and it has cured every one of them."

Prescription C-2223 was first used by a successful specialist in his practice. The prescription produced such remarkable results in the treatment of rheumatism, lumbago, gout, lame back and similar conditions, that its manufacture in a large way was necessary.

Prescription C-2223 contains no opium, morphine, chloral, strychnine or habit forming drugs. Its use will not damage the stomach. If you are suffering from rheumatism or similar diseases go to your druggist today. Buy a \$1.50 bottle of this splendid prescription ready prepared. If you are not satisfied with the relief obtained after taking two bottles according to directions, take back the empty bottle and you will get your money.

Prescription C-2223

BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer from sick headache or dizzy, nervous spells, acid stomach or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Constipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

GERMANS WILL SIGN, IF AT ALL, BY JUNE 10

PRESIDENT TO COME HOME IN FORTNIGHT.

Confidential Advices From Berlin Indicate Sentiment Favor of Acceptance.

(By John Edwin Nevin.)
Paris, May 28.—(L. N. S.)—President Wilson will leave for the United States within a fortnight, according to present plans. It is possible that the date of his departure may be fixed as early as June 5. The president is determined not to allow the Austrian complications concerning reparations and the Italian-Jugoslav boundary to keep him in France. He intends to leave as soon after the German treaty is signed as possible.

It is now regarded as certain that if the Germans sign, as it is confidently believed they will, the signatures will be affixed between June 1 and June 10.

The president is willing to assist to the best of his ability in cleaning up the Austrian situation. However, he feels that the situation in the United States requires his immediate return. It is likely that, should the Austrian negotiations be delayed, he will allow the other commissioners to settle the details. It is possible that the president may even name some substitute in his place, should the necessary delay occur. He is emphasizing the fact that the United States can never consent to the carrying out of the pact of London, which the president has characterized as "most shameful," in his discussions with the other members of the big four.

Confidential reports reaching Paris today from American sources in Berlin indicated that sentiment in favor of signing the treaty is growing stronger everywhere, and this is recognized in the attitude of the German envoys at Versailles, who are working at top speed getting ready the final conclusions and demands for changes which will be presented probably on Thursday morning.

The understanding in allied circles is that the big four will devote only a short time to the German counter-proposals and will then demand that the Germans accept or reject them within forty-eight hours. It is stated that, while further modification in the treaty is expected, it will simply be along the line to make the carrying out of the terms easier. In the meanwhile, the allied armies are ready to strike at a moment's notice should there be an eleventh hour rejection.

GERMAN GOODS IN ITALY

Products Stored on Frontier, Ready to Flood Market.
Milan, May 28.—Immense quantities of German products are stored in warehouses at Chiasso, on the frontier between Italy and Switzerland, and it is rumored by German sources that immediately her commercial relations with Italy, according to Ulysses Bywater, of the United States Chamber of Commerce.

There are thousands of bicycles of German manufacture at Chiasso, ready to flood the market. Mr. Bywater, of the Associated Press today, said: "There are also carloads of chemicals and dyes which have already been offered Italian merchants at extremely low prices. The high rate of exchange makes Italian goods most difficult to sell. This makes the price, when traded, and large and attractive. The dollar exchange costs the Italian three times as much as the mark exchange. Naturally the prices of German goods in Italy are very low."

There is a sure market for American goods here, but the monetary situation is very hard and will be solved only by another American loan or by the payment of a large war indemnity to Italy."

Stomach Troubles.
When your system becomes clogged from overeating, constipation and a torpid liver, your stomach is likely to trouble you. A dose of Chamberlain's Tablets will give you quick relief. They cause a free movement of the bowels, tone up the liver and strengthen the digestion. You will be surprised when you realize how much better you are feeling a day or two after taking these tablets.

KNIGHTS HAVE PROGRAM

Pythians and Their Ladies Will Dance at Keystone Hall Friday Evening.
Keystone hall on Walnut street will be the scene of a social on Friday night, given by members of Keystone lodge No. 21, Knights of Pythias, in honor of their ladies. In the early part of the evening a program will be given including a talk on the "War in Europe" by Mrs. Phil W. Whitaker, as well as several musical numbers and recitations. Following the program, refreshments will be served and dancing will be enjoyed until a late hour. The entertainment will be in the nature of an open meeting, all Pythians and their friends being invited to attend.

ENSIGN KILLS HIMSELF
Norfolk, Va., May 28.—Ensign James Garmon, 23, attached to the navy pay corps service, shot and killed himself yesterday, in the navy department office here. Officers could not explain for the act.

CROSSES JAURA ALPS
Aviation Mail Service to Be Established Between Paris and Geneva.
Geneva, May 28.—(L. N. S.)—An aviation mail service has been established between Paris and Geneva. Swiss aviator made the journey in five and one-half hours, crossing the Jaura Alps at an altitude of 9,000 feet.

DOESN'T LOOK LIKE DIPLOMAT, BUT—

Lord Robert Cecil

LORD ROBERT CECIL

Lord Robert Cecil has been an important figure at the peace conference and is a member of the executive committee of the league of nations. He outlined the British draft for a league constitution which was used along with those of Wilson and Clemenceau in framing the pact. This picture was taken at the first meeting of the executive committee of the league in Paris. Cecil was British minister of blockade during the war.

Thursday night the officers of our post gave a dance. There were about seventy-five couples present, all American men and women. The music was A. E. F. composition, played on instruments made in Philadelphia, by a bunch of musicians from seven states. The clubhouse in which it was given (two steel storage buildings erected side by side and made into one, wainscoted and lined with wall board) were manufactured in Pittsburgh, except the floor, of long leaf yellow pine, from Georgia.

The brick of which the big, open fireplace is made were from Delaware. "It was brought over in American ships and erected into a house by American engineers."

"At the end of the dance there was a salad, with apples from New York and peaches from Louisiana, with ice cream from New York evaporated milk."

"The ballroom was brilliantly lighted with electricity generated at the largest refrigerator plant in Europe, whose big battery of boilers which furnish the steam display in hold letters on their front the shame-

SAVE JOBS FOR MEN CALLED TO SERVICE

THREE WITNESSES TESTIFY IN FORD CASE.

All Three Return to Original Jobs, but Are Not Paid for Time Absent.
Mount Clemens, Mich., May 28.—Attorneys for Henry Ford in his \$1,000,000 libel suit against the Chicago Tribune, has launched a direct attack against the Tribune allegation that Ford employed men who left the employ of the company in 1916 to serve in the Mexican border, had been refused reinstatement. Three employees of the Ford company testified they had gone to Mexico in that year with the national guard. All three according to their testimony, had been promised reinstatement and all had been reinstated without any hickering or difficulties, directly upon their return from military service. The Tribune attorneys spent little time on cross-examination of the Ford witnesses except to quiz them as to whether or not they had been paid by the Ford company during their stay in the army.

Norman Baker was the first witness called today by the plaintiff. He is a factory foreman who has been with the company for eight years. In 1915 he was sent to North Michigan with the national guard for strike duty during the copper strikes, he said. In 1916, he served with the guard on the Mexican border. Both times, he testified, he had been at once reinstated.

On cross-examination Baker admitted he had not been paid by the Ford company during his military service. Baker was followed by Julius B. Jones, an assembler. This witness had belonged to the Kentucky national guard in 1916. To queries by Ford attorneys he said he had been ordered in June of 1916 to rejoin his regiment. He informed his superior officers and was told to go and that his job was waiting for him upon his return. He testified, Jones also admitted under cross-examination that his pay had not continued during his period of service with the national guard.

A. E. Brown, a machine hand, was the third witness. His testimony was in essence the same as that of the preceding witnesses. His job had been open for him after his service in the army but he had not been paid for that time, he said.

BRYAN TO TOUR SOUTH

Will Sound Keynote for World-Wide Prohibition.
Westerville, O., May 28.—William Jennings Bryan in a speech at Washington June 8, will sound the keynote for world-wide prohibition and will begin a three weeks tour of the country in the advocacy of a dry world, according to announcement made here today at the national headquarters of the anti-saloon league. His speech June 8 will follow the annual convention of the anti-saloon league and a world-wide prohibition conference at Washington.

Mr. Bryan's tour will conclude July 1, the date set for the inauguration of wartime prohibition. His schedule calls for two speeches of five to ten minutes each by other speakers were being arranged. The Bryan tour will be through the south and will take him into Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Oklahoma, Tennessee and Louisiana. It will open June 10 at Fredericksburg, Va., and close July 1 at New Orleans.

POLAND'S BEST FRIENDS

This is Way Paderewski Regards Wilson and House.
Warsaw, Via London, May 28.—(L. N. S.)—From the London Daily Express cable: "President Wilson and the U. S. House were referred to as 'Poland's best friends.' In a speech made by Premier Paderewski just before leaving for Paris."

The premier expressed deep gratitude for all the United States had done for his country. M. Paderewski said that he and his colleagues were not wholly satisfied with the western frontier of Poland as fixed by the allies, but he was satisfied that the entente desired to be just in their decisions. At the request of the premier, parliament passed a resolution in favor of autonomy in East Galicia.

REVICTUAL PETROGRAD

Work to Be Begun as Soon as Bolsheviks Are Driven Out.
Paris, May 28.—The allies are planning to revictual Petrograd as soon as the city is captured from the bolsheviks. Herbert Hoover, chairman of the international food relief commission, will have charge of the work. Estonian and Finnish troops are still advancing on the city from two sides and it is reported on reliable authority that they expect to enter in triumph before the end of this month.

RHINELAND DISSATISFIED

Prepares to Separate Itself From Prussia and Establish Independence.
Berlin, Via London, May 28.—The Rhineland may separate from Prussia and establish itself into an independent state. One newspaper in Aix-la-Chapelle says that the separation may take place within a few days as 50,000 persons have signed a petition in favor of the movement. The German press generally is condemning the efforts of certain leaders in the Rhineland district to bring about the change.

FUTURE OF HOSPITAL

Washington, May 28.—(Special.)—General hospital No. 14, at Fort Oglethorpe, Ga., with a bed capacity of 1,000, is to be discontinued as a general hospital and will hereafter be conducted as a 100-bed post hospital. No more overseas cases will be sent to this hospital and overseas cases now there and other cases requiring prolonged or special treatment will be transferred elsewhere.

American Function Given Right in Heart of France by Americans

Everything Used Was Purely American, Even Electricity Generated by Power of Chattanooga-made Boilers.

Maj. J. P. Fyffe is somewhere in France. His latest letter gives only this address, dated May 4, "A. P. O. 731, A. E. F.," but the letter, which he wrote to a personal friend, is full of interest. But the letter speaks for itself and is as follows:

"C. A. Bach, Troup Miller and Jimmie Ray, all colonels, all well known as lieutenants of the Seventh cavalry while at Fort Oglethorpe, were here yesterday on a sightseeing trip."

"There is something in the air today, but guess the censor would object to its being told, and I guess it will be over by the time this reaches you and the peace treaty will be signed."

"Thursday night the officers of our post gave a dance. There were about seventy-five couples present, all American men and women. The music was A. E. F. composition, played on instruments made in Philadelphia, by a bunch of musicians from seven states. The clubhouse in which it was given (two steel storage buildings erected side by side and made into one, wainscoted and lined with wall board) were manufactured in Pittsburgh, except the floor, of long leaf yellow pine, from Georgia."

"The brick of which the big, open fireplace is made were from Delaware. "It was brought over in American ships and erected into a house by American engineers."

"At the end of the dance there was a salad, with apples from New York and peaches from Louisiana, with ice cream from New York evaporated milk."

"The ballroom was brilliantly lighted with electricity generated at the largest refrigerator plant in Europe, whose big battery of boilers which furnish the steam display in hold letters on their front the shame-

ful expression: 'Made by Casey-Hedges Boiler company, Chattanooga, Tenn., U. S. A.'"

"In fact, we are justified in saying that here in the heart of France, in the very shadow of the many beautiful chateaux of the Loire region, we had a really and truly American function."

"The only thing in connection with the entire affair, either animate or inanimate was the French that some of the Red Cross tried to spring, and that was bad."

"Every time the officers have a dance the men have one on a different night the same week, but with the same girls."

"Last week in our theater we had a minstrel show, a musical comedy, three movies and a prayermeeting. A baseball league with eight clubs, and another (colored) with six clubs, are in full swing, with daily games. Two tennis courts work overtime. In the Y. M. C. A. building is a large library, a large reading room with papers, a music room, a billiard room and in lieu of tea they serve chocolate daily from 3 to 5 o'clock."

"I tell you all this so you will know what a life—of a tough time we are all having over here and how much we are justified in demanding that we all be sent home on the first boat. There are 340,000 scheduled for the May sailings, so we will practically all be home in time for the Fourth of July parade."

"As I write a troop train of fifty cars is passing, bound for a port, with the men hanging out the windows, cheering and waving to us men."

"That was a splendid welcome that Chattanooga gave to the Thirtieth division. But Chattanooga can always be depended upon to do the splendid thing when occasion requires."

REFUSES HIS SIGNATURE

Dakota Official Holds Bond Issue Executive.

Bismarck, N. D., May 28.—The \$2,000,000 bond issue to provide capital for the Bank of North Dakota, which was authorized by the recent legislature, was held today to be legal, in an opinion given by Attorney-General Langer, at the request of Secretary of State Hall. Hall has refused to affix his signature to the bonds, holding that the constitutional bonding limit of the state would be exceeded by the \$2,000,000 issue unless secured by mortgage. Langer's opinion stated the \$2,000,000 bonded indebtedness of the state at present did not affect the present issue.

Children's Coughs and Colds.
For children's coughs and colds Chamberlain's Cough Remedy is excellent. It is prompt and effective and contains no opium or other narcotic, and is pleasant to take.—(Adv.)

RE-AFFIRMS DECISION

Ottawa, Ont., May 28.—In a judgment issued today, a district court, Ontario, re-affirmed its decision, confirmed the order he made in September last, fixing prices for newspaper paper. An appeal was taken and the government created a special tribunal of judges to hear it. This body ordered new evidence to be taken on certain points. After hearing further evidence on its costs, Mr. Finkle says in the judgment he sees no reason to alter the original decision.

Don't worry if you lose anything. A "lost" ad in The News is almost sure to bring it back if anybody that's honest has found it.—(Adv.)

Hotel Walcott

"A Smart Hotel for Smart People"

A hotel with all the metropolitan luxury so attractive to the out of town visitor to New York, and all the homey atmosphere so desirable to every traveler. Appealing especially to women visiting New York unescorted.

A Commercial Car is a Business Proposition

JUST a question of cost against profit. You will never know what deliveries cost until you find the cost per mile of tires.

Let's figure it out. Start with our guarantee of 5000 miles (6000 miles on small sizes). Lots of tires are not guaranteed for anything like 5000 miles, but we know that Gordon Tires are good for that mileage anyway.

The cost of tire divided by 5000 miles, gives maximum mileage cost per tire—something under a cent a mile.

Then suppose a set of Gordon Tires runs for eight, ten or fifteen thousand miles—which they are doing right along.

On a fleet of twenty-five commercial cars, that would mean nearly half a million extra miles of tire service, worth approximately \$4000.

This is all rough figuring but it shows the possible profit a good tire can earn, and the extravagance of poor tires.

A number of big concerns in this city are using Gordon Tires on their commercial cars. They bought the first Gordon because its guarantee insured against loss. They keep on buying because Gordons average a surplus mileage which is cutting down the cost of deliveries.

Try one Gordon Tire on a Commercial car. Let us register it. Keep track of it yourself. Don't forget it after it has passed the 5000 mile mark but find out the actual mileage you can expect from a Gordon Tire.

Let that record be your standard of tire performance—for one Gordon is as good as another.

We honestly believe that you will use Gordon altogether as a business proposition—once you know their profit possibilities.
